

# Montaje Sky Deck

## Somerville, Massachusetts

- TYPE  
Commercial
- SIZE  
1,500 sq. ft.
- COMPLETION  
April 2018

With sweeping views of Greater Boston, Montaje Sky Deck provides a relaxing space to escape from the commotion of the city.

The Sky Deck, located atop a mixed-use building at Assembly Row, features intimate seating areas and sculptural plantings, creating Somerville's highest oasis.

Recover carpenters installed decking and wrapped pergola columns with FSC-certified ipe to create the feeling of relaxing in a forest canopy. The deck is framed by raw steel banding and custom-fabricated corten planters, surrounded by a variety of paver styles.

Recover also installed several interactive installations including, a tower viewer and sundial, giving residents even more ways to enjoy the sweeping views.
